

2015 Survey - Verified and In Process Trauma Centers

Other Responses to Certification Requirements	
Estimated Annual ED Visits	Response
Less than 25,000	N/A
25,000-50,000	ENPC is encouraged and approx 50% of RN's have this.
50,000-100,000	Our Nurses are starting to take ATCN in place of TNCC after a certain number of years.
50,000-100,000	RNs must be either TNCC or ATCN and PALS or ENPV.
50,000-100,000	PAs are a component of the physician staffing model - we do not have APNs in the ED.
50,000-100,000	24/7 coverage with a RN that is TNS certified.
50,000-100,000	ATCN, ENPC and ATLS are alternate certifications once a RN obtains the TNCC certification.
Greater than 100,000	PALS and ENPC applies to those working in Pediatric ED
Greater than 100,000	APNs in ED do not work in advance trauma area, work observation and non urgent care. Not all RNs required ATCN.
